

K-Love serves me in my community by providing me with commercial free Christian music to help me through good times and bad. It is the ONLY station that I listen to in my car. I KNOW it is family safe! They also provide non-profit groups ways to advertise their events free of charge, which helps the community. I would like for K-LOVE to continue to be available on the FM stations. I believe it is in the best interest of this community as this world seems to be losing morals and values by the minute, K-LOVE provides positive and uplifting music!
